

One Touch Boiler

INSTALLATION INFORMATION

Refreshing BRITA filtered water
at the touch of a button.

| | |
|----------|---|
| POWER: | 1 x 13 amp plug above the counter top and within 1m of where machine is situated |
| WATER: | 15mm copper terminating in a 3/4 washing machine valve in cupboard below where machine will be situated |
| WORKTOP: | 16mm hole 30mm from the back wall behind where the machine will be installed. This will connect the water pipe from the cupboard below to the boiler. The Office Coffee Company will drill the hole when the One Touch Boiler is in place only when the worktop is standard laminate or MDF - not Corian, marble, or stone. |
